

IT Support Technician Diploma with CompTIA

This diploma will help you learn how to install, repair, upgrade and maintain PCs and operating systems. A great choice if you're looking for a career in IT support.

Our IT Support Technician Diploma is ideal if you're looking for a role within a company's IT department, retail computer store or if you want to carry out home repairs. A great option if you're looking to go on and gain a reputable CompTIA Certification.

Get highly valued IT skills that are always in demand

IT Technicians hold one of the most important jobs for any company. It will be your role to keep computers and related systems running smoothly and efficiently.

You could be responsible for fielding telephone calls or responding to help-desk messages from individuals who are experiencing problems with their computers.

The role of IT Support Technician is vital within any businesses and with our Diploma your skills will be highly in demand. You'll be a valued member of the team, keeping computers running smoothly and precious data protected.

A Pitman Training Diploma is one of the most prestigious diplomas you can complete from one of the most highly regarded training organisations across the world. Businesses throughout the UK recognise the Pitman Training name as a sign that you have been trained to the very highest level.

Aims and Objectives

You'll learn how to install, repair, upgrade and maintain PCs and operating systems to ensure you have your company or customer's back up and running in the timeliest manner.

Pre-Requisites

There are no pre-requisites required.

Career Path

CompTIA certifications are a recognisable IT industry qualification that can help you get a rewarding career as an IT Technician, Support Technician, Helpdesk Engineer etc.

With further training in specialists areas you could look towards a career in Server Support, Network Engineer or Systems Analyst to name just a few jobs.

CPD Points 205
